

# Ben Bubnick

DATA SCIENTIST · HEALTHCARE ANALYTICS · TRAINING SPECIALIST

3419 Superior Park Drive, Cleveland Heights, Ohio, 44118, U.S.

☎ (+1) 216-556-1612 | ✉ ben.bubnick@gmail.com | 🌐 benbubnick

*"I want to use my 15 years experience to reimagine healthcare by creating, assembling, and improving our business relationships through data science. I believe that when I inspire people to do the things that inspire them, we can improve the relationship between caregiver and patient."*

## Experience

### Data Science

IBM

WATSON HEALTH

May. 2020 - PRESENT

Senior member of Data Onboarding & Governance integration of healthcare data and enrichment of metadata. Configuration of data models, analytics, reports, and visualizations. SME to project data architects, delivery, analytics, integration, etc. Directs the configuration of the data onboarding platform and associated infrastructure, and develop improvements to advance stakeholder's business priorities using tailored analytics.

- Led cross-function team as clinical data analyst for 2020/2021 measure updates project
- Created machine learning Covid-19 tool that reduced need for hospitalization identification time by up to two weeks
- Created AI Surgical Scheduling Optimization tool currently evolving into new offering
- Developed large clinical data integration in excess of several 100 billion structured and semi-structured records for life sciences analytics projects
- Led HIPAA patient deidentification project from more than 100 data sources for content analytics and measures
- Served in an advisory capacity for new data platform development project
- Placed in the top 6% of all learners at IBM by completing 285 learning hours in 2020, and earning 8 badges in that time

### Data Curation & Architecture

IBM

WATSON HEALTH

Oct. 2017 - Nov. 2021

Lead member of Data Onboarding & Governance, member of the Watson Foundation for Health Solutions Architecture team. Remediation of data issues during UAT. Built the data onboarding platform and associated infrastructure, and developed improvements to reducing customer implementation cycle time and data triage activities, and report on the "health of the data" during data onboarding. Tune machine learning classification algorithms for patient matching, and led the internal review of similar work by my peers.

- Reduced mapping rework by 45% with through new knowledge-driven initiatives
- Developed new data validation and review process that reduced total rework by 25%
- Managed and developed ambitious multi-org enterprise with over 70 interconnected, project-sized components
- Earned AI certification to peer review tuning algorithm and reviewed over 50% of projects in the last 2 quarters
- Earned 7 badges during IBM Re-skilling Initiative and logged over 200 hours of training in 2018
- Curated 25 pages of AI workflow documentation and mentored new hires in AI tuning process
- Awarded Lab Services Award for coordinating internal project teams to deliver client needs on time
- Awarded GDP bonus for improving revenue per SaaS client by at least 1.34%

### Data Engineering

IBM

EXPLORYS

Jun. 2015 - Oct. 2017

Data Ingestions, pre-analytic enrichments, analytic augmentation, and data governance. Identified and extracted key data from multiple heterogeneous systems; and led technical requirements gathering, data discovery, documentation, and implementation of assigned client integrations. Ordered and oversaw installation of & configuration of required hardware, including VPN devices to support client integrations. Configuration and development of software necessary to support client integrations.

- Eliminated need for a \$30,000 annual contract by developing data curation tool
- Principal integration specialist on over 60 projects for 20 different clients
- Chosen as team lead for ≈12 remote data science contractors for 36 integration projects throughout 2015 - 2017
- Closed project documentation gaps, organizing more than 100 past projects
- Created over 125 new knowledge base articles, making up 30% of the team's online content
- Reduced time spent on knowledge transfer by ≈80% by reorganizing project documentation
- Awarded Eminence and Excellence Award in 2017 for analytics project
- Awarded GDP bonus for improving revenue per SaaS client by at least 1.17%

## Data Integration Training

IBM

WATSON HEALTH, EXPLORYS

Sep. 2016 - Jun. 2018

Project Management for technical training, providing both basic and advanced software training, along with consulting through cross-team and other training/presentation settings. Designed and managed the internal training, an effective onboarding program, and cross-team development training. Focus on HDFS technologies: Pig, Hive & Impala, Ruby & Java.

- Eliminated average of 3 weeks from employee onboarding process
- Reduced cost-per-hire by \$5,210 by re-developing education program
- Spearheaded new-hire mentoring program that led to ≈4,500 increase in total billable hours
- Trained 60% of current data curation teams, including multiple managers

## Software Engineering

AmTrust Financial Services

COMMERCIAL PACKAGE POLICIES

Mar. 2014 - Jun. 2015

Developed web forms for insurance industry using ISO standards and created multi-tier MVC components, Web APIs, and UIs using VB, ASP, Javascript, & HTML5

- Development on two software architecture projects in 2015 and principal developer on offering product in 2014
- Developed over 65 ISO rating based web forms for insurance industry
- Collaborated with developers and business analysts to prioritize needs
- Steered development group into a unit testing project on multi-tier MVC components in 2014

## Color Science

PPG Industries

AUTOMOTIVE REFINISH

Apr. 2012 - Jun. 2013

Developed software and radiative transfer models on complex paint mixtures to determine formulation methods and for spectroscopic profile analysis on color match samples.

- Improved color matching classification algorithm performance by 40% through new numerical methods
- Wrote and filed application for patent on the application of the Radiative Transfer Equation (Chandrasekhar) to automotive coatings classification models
- Developed cross-instrument correlation software for risk analysis project
- Awarded Color Lab Automation Award in 2012 for color matching laboratory opening

## Adjunct Professor

various colleges

LORAIN COUNTY COMMUNITY COLLEGE, MIAMI UNIVERSITY, CINCINNATI STATE TECHNICAL AND COMMUNITY COLLEGE

Aug. 2010 - May. 2019

Developed curricula in introductory physics & astronomy courses, and technical presentations of complex physical concepts for major, non-major, and remedial students. Wrote concise laboratory instruction manuals, trained in precise measurement techniques & data analysis using DataStudio, and coordinated analysis documentation.

- Exceeded feedback evaluation goals by an average of 16% in 2017 and by 17% in 2018
- Tracked a 28% reduction in student confusion by reorganizing online education materials
- Uploaded over 700 hours of lecture material for convenient consumption

## Scientific Research

University of Cincinnati

DEPARTMENT OF PHYSICS

Sep. 2006 - Sep. 2010

Gathered data using SpeX, a 0.8–5.4  $\mu\text{m}$  spectrograph, at the NASA Infrared Telescope Facility. Observations in the short-wavelength, crossdispersed mode SXD. Multiple analysis projects comparing 2MASS with measured data, statistical classification without independent photometry for cluster properties, and photometric analysis bootstrapped to independent measurements.

- Volunteered 120 hours of Quality Control for the Cambridge Astronomical Survey Unit Variable Stars database
- Published 3 scholarly articles on near-infrared astrophysics over a 24-month period
- Awarded Hanna Research Fellowship in 2010
